

**CODED WELDERS  
PIPEFITTERS  
BOILERMAKERS**

**THE COMPANY**

Enginuity is a West Australian company which provides fabrication services to the water and wastewater industry and mining sectors in Western Australia

We have just been awarded a major piping contract for a mining construction project in the Pilbara region of WA.

Enginuity's expertise is in the following areas:

- Carbon Steel Pipework
- Stainless Steel Pipework

For the Pilbara project, the work will involve carbon steel pipe spooling only.

WaterCon's main office and workshop is in Malaga, although we are currently in the process of re-locating to larger premises, most likely in Welshpool.

**THE POSITIONS**

We have positions available for Coded Welders, Pipe Fitters and or Boilermakers

The typical work activities involve:

- Pipe fitting of carbon steel and stainless steel pipe fittings from DN100 to DN1400
- Welding of carbon and stainless steel pipework using the GMAW-STT, FCAW, GTAW and SAW processes
- General and structural fabrication to AS1554

**THE APPLICANT MUST BE ABLE TO MEET THESE MINIMUM REQUIREMENTS**

**PIPE FITTERS**

1. **Qualifications in steel fabrication/boilermaking**
2. **Experience in pipefitting of the materials described above**

**WELDERS**

1. **Be able to pass a welding test as described below**
2. **Ability to use the FCAW process in the 5G and 5F positions.**

**IF SELECTED YOU WILL BE REQUIRED TO PERFORM A WELDING TEST USING AN STT ROOT AND A FCAW FILL AND CAP IN THE 1G POSITION. THE TEST WILL BE SUBJECT TO 100% RT AND SHALL CONFORM TO THE REQUIREMENTS OF AS4041 CLASS 2P.**

## **ADDITIONAL QUALIFICATIONS AND EXPERIENCE**

- Applicants with the following qualifications and experience will be viewed favourably
  1. Qualifications to AS1796.
  2. Experience with self shielded FCAW (Innershield), mainly NR211
  3. MMAW
  4. GTAW

We offer a friendly and flexible working environment. The career pathways at WaterCon are only limited by your ability and ambition. Progression to management roles in engineering and project management are available and are encouraged.

Ongoing training is provided, as well as opportunities to undertake further studies toward welding and engineering qualifications.

## **THE PERSON**

You will have good written and verbal communications skills.

Computer literacy would be a distinct advantage.

You will be self motivated and able to work well under pressure, demonstrate problem solving abilities and an ability to think outside the square.

You will have a strong commitment to safety and be a team player.

The successful candidate will need to undergo a pre-start medical prior to commencement of duties.

**457 VISA Holders or prospective applicants are welcome to apply.**

## **REMUNERATION**

WaterCon offers above award rates and a remuneration package will be negotiated based on skill and experience. Higher rates for site work apply.

## **APPLICATION**

Please forward applications and resumes via email to [employment@watercon.net.au](mailto:employment@watercon.net.au) or via fax to (08) 9248 1235.
